Introduction

1.1 Purpose

The final website purpose is to simplify donation process. Providing the website that visualise the process of collecting money for drones;

1.2 Output

As an output we should have website which provides numerous drone models on which you can donate selected amount of money. Website should provide eye-pleasing design, fast way to donate money (without registration), full-time support (using bots if needed);

1.3 Executive Summary

Our product aim is to simplify the process of donation and help Ukrainian people;
